ONE RANGERS Way

GOOD AFTERNOON, NICHOLLE SOENDKER

MANAGE WIRELESS

Setting an ecryprtion key enables you to update the wireless passphrase used to encrypt your wireless traffic. After updating your pre-shared key, you will need to update your devices's wireless setting to use the new key. Onlu devices registered to your account may use this key. To onboard a new device, add its mac to your device list above. Pre-shared keys must be at least 8 chataters.
